

Painting with Toddlers

Why paint with toddlers?

1. Painting is: communication (without having to use words), self expression, and creativity.
2. It helps with hand-eye coordination, finger and hand muscle development, uses hearing, touching and smelling, and it grows their brains!
3. They learn: size, shape, patterns, design, and colours. - - including mixing colours to make new colours.
4. It builds self esteem and relieves stress.
