

# *My Spring Walk*

*By Usha*

A beautiful spring morning. The sun was out. I took a walk by a creek and saw some pretty cool stuff. Can you see what I saw? (rocks, water, twigs, reeds, moss, plants, flowers, grass, forest)

Then on the water, I saw... A goose family! There was, papa goose in front, mama goose at the back and 4 baby geese in the middle. Do you know what baby geese are called? Goslings!

Near the creek was a farm. Guess what I saw there? A bison. Can you name more farm animals? (Cows, sheep, pigs, chicken, ducks, goats, horses)

In the nearby forest, I saw these pretty white flowers. Do you know what these are called? Trilliums!  
What else can you see on the forest floor?

On the forest floor , I also saw this cool rock with green on it. What is this stuff? Is the rock growing hair? You guessed right! It is moss on the rock.

At the end of my walk, as I turned to go home, by the bank of the creek, I saw ... this beautiful big bird with an orange beak and long, long legs. It was Mr. Blue Heron, fishing for his breakfast!

That made me think of my breakfast, So I came home and had breakfast. I had an enjoyable walk and I had seen a creek, geese, a farm, bison, the forest and a blue heron.

How about you? Have you gone for spring walks yet? I would love to hear about what you saw.

***THE END***
