

Mother's Day Crafts

Children love drawing and cutting out their hand prints. Great skills to practice and show their love for Mom.

Cut out a heart and add surrounding colours with paint and a pencil rubber, cotton balls, and for a full sensory experience; fingerprints!

Paint may be added to paper using a scrubby, a potato masher, brush, fingers, bubble wrap-the ideas are endless! Cover with a cut out heart .

Paper towel tubes can be bent into heart shapes , dipped in paint and used as a print. Children love to create with a variety of colours.

Happy Mother's Day!
